Targus

TSB226CA | Targus Terra 16” Backpack

The Targus Terra 16” Backpack is designed to carry laptops with up to 16” screens. This thoughtfully designed backpack has numerous accessory pockets including an MP3 compartment with headphone port and a large front pocket with enough space to carry a laptop charger. To help organize personal items, the Terra backpack includes pen loops, business card holders, two mesh side water-bottle pockets and a convenient vertical pocket on the front for easy access to keys or other items you may need to grab quickly. The interior includes a large space in front of the padded laptop compartment to store a binder and books. The rugged exterior features a durable, water-resistant bottom panel that is constructed with material that won’t snag for added durability. For immediate protection during inclement weather, the Terra backpack features a detachable water-resistant rain-fly that covers the entire backpack and tucks away in a zippered compartment when not in use. The heavily padded back panel provides ergonomic support, features a breathable mesh lining and is constructed to allow for ventilation while carrying the Terra backpack. Compression straps on each side of the case allow users to compress heavier loads so it’s easy to carry on your back.
